MR. FRICK RECOVERING

otwithstanding Intense Heat in Pittsburg PITTSBURG, Pa., July 25.—Chairman Henry C. Frick of the Carnegie Company did not come down to his office this morning, as he had was carried to the ambulance on Saturday night. Nor is it probable that he will be seen at his desk for many months to come. Reports from his residence this morning are to the effect that he passed a restful night despite the closeness of the atmosphere. His extraordinary vitality was strikingly demonstrated yesterday, for although it was the hottest day that Pittsburg has experienced in nearly ten years, his wounds gave him apparently little trouble, while mentally he was bright and active. His wounds were examined and dressed this morning, but there were not the faintest traces of blood poisoning or of any greater amount of inflamma-

poisoning or of any greater amount of inflamma-tion than would be expected under the circum-stances, and results of the examination were decidedly encouraging both to his surgeons and their patient.
After the examination Mr. Frick asked for

the morning papers and read with interest the accounts of the movements of the would-be as-sassin during Sunday and the interviews had MUST STAY IN BED FOR WEEKS. As to the future of the sufferer the surgeon say that it will not be possible for him to leave his bed even to walk about the room for a month or six weeks at the earliest. It may be longer, but unless blood poisoning or some other unlooked-for development should supervene they believe that he will improve rapidly and recover completely. They are particularly concerned about the gashes on the under side of the leg, just above the knee, which were made by the assailant's knife. These almost severed the tendons and will occasion excruciating rapin at intervals for many weeks to come. Alpain at intervals for many weeks to come. Although the corps of surgeons in attendance upon the wounded man include the most emi-nent skill in the city, it was decided last night to telegraph to an eminent New York specialist asking him to come here at once to make a per-sonal examination of the patient and advise concerning the treatment. oncerning the treatment.

THE MERCHY'S CLIMB TODAY.

About 5 o'clock this morning the mercury must have nodded, for it slipped down to 76, but quickly recovered itself, and by 8 o'clock had made up to 80, when it took a fresh grip and commenced its steady climb.

The heat on the streets during this afternoon has fairly been terrific. Those who have remained indoors, at home er in their offices have been fortunate compared with the unlucky citizen whose duties called him down Pennsylvania avenue in the middle of the afternoon.

energies to discover whether or not the murderous Russian had any accomplices with him in this city, and a vigorous search is being made for a man answering the description of Warren Stamm, who was Berkman's boon companion in New York and who is said to have disappeared from his usual haunts in that city. When Berkman was dodging the entrance to the Duquesne Club, where Mr. Frick lunched on Saturday, he was accompanied, so say several of the members, by a man whom they recollect as being attired in a suit of blue cloth, but of whose facial characteristics they were unable to give any description. It is thought that this fellow was an accomplice of the anarchist and waited at the bottom of the stairs with the intention of assisting him to escape, but took flight after the firing of the shots and the assembling of the crowd. Berkman, however, appears to have been alone when he registered at the Merchants' Hotel on Friday night.

Superintendent of Police O'Mara left for New

ment of policemen. It is now about settled that an effort will be made to put several hundred men in this mill as soon as they can be arranged for. No strangers have yet arrived at the works. Only the hands employed continually since the shut down, ten days ago, are on duty. But everything about the interior of the departments indicates that they are in dead earnest for work. O'DONNELL GIVES BAIL. Judge Magee Says That There Was No Proof That He Participated in the Affray on the 6th. PITTSBURG, July 25.—The action of Judge Magee this morning in admitting O'Donnell to bail is just what had been anticipated by those who heard the evidence adduced by the procution on Saturday. The court reviewed this evidence at length, cited the law on the ques-

tion and announced as his conclusion that no case of murder in the first degree could be made out against the prisoner.

It was apparent, he said, that O'Donnell was not an actual participant in the action although there are grounds for the belief that he was a sympathizer and evidence enough to justify an indictment for murder in the second degree. He hoped, however, that when the defendant He hoped, however, that when the defendant came to trial he would be able to show that he was in no wise guilty of participating in an affray that had resulted in the loss of so many

The decision was received with a buzz of matisfaction from the crowded court room, and it was fully a minute before the tipstaffs could secure silence. It was then announced that no evidence would be offered against Ross, Ferry and Allen and bail in the same amount was fixed for each defendant. Bail was promptly given for all four prisoners and they were released.

A FINAL PEACE OFFERING. The Carnegle Company Will Make No Fur PITTSBURG, Pa., July 25 .- The orders signe by Mr. Frick and posted at the Homes works this morning, to the effect that men returning to work would be insured against re moval, and which was given in the dispatche

of last night, is regarded as the final peace offer

ing of the firm to the strikers. In this con-nection a representative of the firm makes an policy of the management in the present crisis will be strictly adhered to. The statement that will be strictly adhered to. The statement that
Mr. Carnegie is not in full accord with Mr.
Frick in the course the latter has pursued
of late is absolutely and unqualifiedly
untrue. It can be proven beyond peradventure
that Mr. Frick has been but carrying out the
plans formulated by Mr. Carnegie himself. As
for our present position we are still willing to
confer with such of our employes as are
worthy of our confidence, but we will do no
talking through a conference committee composed of men not in our employ. Nor will we
recognize the assumption that these strikers
have a right to permanentemployment whether
their services are satisfactory or not. Hereafter
we will do business on the old-fashioned plan
that we can hire any man who wishes to work

It is understood that orders will be issued to-day by the Carnegie Company to the superin-tendent and foreman of the Duquesne mill to start up at once with non-union laborers. The men at this mill struck on Friday out of sym-

from Chicago who was arrested on 2d avenue late last night while telling a small crowd that he had walked all the way from that city to kill Andrew Carnegie, will be sent to the workhouse today. When taken to the station he fainted for the want of food and afterward admitted that he had eaten nothing since Friday. He says he has lived in Chicago for years, had worked on one of the cable lines and was in the Haymarket Square during the riot. The pockets of his clothing were entirely empty, save an ugly looking knife.

Fought Over the Value of Presents They Gave MABONAY CITY, PA., July 25.—John Lipski, e young Polander, was married at 2 o'clock yesterday morning to Mary Kolsovitch. Among at the bottom of the stairs with the intention of assisting him to escape, but took flight after the firing of the shots and the assembling of the crowd. Berkman, however, appears to have been alone when he registered at the Merchante' Hotel on Friday night.

Superintendent of Police O'Mara left for New York last night for the purpose of conferring with Inspector Steers regarding the possibility of the attack being the outgrowth of a conspiracy among that section of the anarchists to which Bergman belonged. He took with him several photographs of the prisoner and also, it is believed, private papers found in his clothing, and which are likely to prove of value in the investigation at the New York end. Concerning the latter matter, however, the police authorities at this end refuse to say a word.

New York, July 25.—The prisoner brought to the central office last evening and believed to be in some way connected with the plot to assassinate Mr. Frick in Pittaburg was Morris Roseburg. Inspector Steers said today that Rosenburg was a pickpocket who was caught while plying his trade at the south ferry. He has no connection whatever, the inspector says, with the Frick affair,
